

19TH INTERNATIONAL SYMPOSIUM ON VULCANOSPELEOLOGY

~~CATANIA 28th AUGUST - 5th SEPTEMBER 2020~~

Web members

To all those who connect online, I remind that we plan to broadcast via the web all the sessions at the university and the two evening slides and video presentations with the participants' activities. Those who are registered as web members will receive by mail the link to be able to attend events within the day before the connection. While linking up, attendees will be able to submit their questions via the product-specific chat. The questions will be collected by the coordinator and submitted to the speaker at the end of his speech.

Those who are going to present a lecture will receive a specific link shortly before the start of the session. We advise them to prepare a PowerPoint presentation with the slides they want to illustrate and upload it to the hard drive of the computer from which they will connect. It will then be possible to share the screen to broadcast the presentation to all participants. For each presentation, a maximum time of 20 minutes is assigned plus another 10 minutes for any questions.

During the pre - symposium week, the speakers who wish to do so will be able to test the connection and sharing of the screen by making an arrangement via email with the Symposium desk.

The final program with the precise schedule of each day will be published on the Symposium website by 20 August. As for the meeting time, we remember that all times of the program are referred to the Central European Time (GMT +2).

Finally, we ask all those who have booked the dispatch of the book of proceedings to their home , to write an email to contact@19isvetna.com indicating their complete postal address. We plan to print the book with the complete works presented at the Symposium by the end of the year 2021.

If you have any other questions, do not hesitate to write an email to contact@19isvetna.com

Goodbye from Catania

The Organizing Committee
